NPA – Advocate for the International Network Computing Professional

ABOUT NPA

Established 1991, the non-profit Network Professional Association® is the leading organization for network computing professionals. To be identified as true professionals, the international membership adheres to a code-of ethics; demonstrates continual professional development and knowledge, adheres to the latest best practice standards, and strives for continual growth. The widely acknowledged and the industry's only international Awards for Professionalism honors individuals for their outstanding achievements in network computing and meeting the values of professionalism. The impartial strength of the NPA is a result of vendor neutrality and self-regulation.

A member of the NPA believes in the values of the professional association, its focus on the CNP credential and the professional status of network professionals through advocacy. Members receive a certificate of membership, quarterly Journal publications, benefits derived through chapters and programs, and opportunities to volunteer, publish and develop.

The Association's focus is to support and promote the role of the network professional. Information about current activities and benefits may be found by visiting the NPA website – www.NPA.org.
